DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 09-19-2006 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. Three of the four foreign references cited have not been considered (see initialed copy of IDS).

Specification

2. The disclosure is objected to because of the following informalities: any and all references to specific claim numbers must be deleted (e.g. see page 2, last two lines).

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. Claims 13-24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Regarding claim 13, the phrase "groove-like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "-like"), thereby rendering the scope of the claim(s) unascertainable. See MPEP § 2173.05(d). Likewise, in claim 23, the phrase "like a sleeve" is indefinite.

5. In claim 13, line 7, "said housing side" lacks antecedent basis.

6. It is unclear if the trajectory recited in claim 13, line 9, is referencing the trajectory previously recited in claim 13, line 6.

7. In claim 14, lines 3-4, the phrase "substantially without transverse components" is unclear as to whether the transverse components are being claimed. Moreover, the phrase "substantially without" is indefinite.
8. It is unclear if the damper recited in claim 21 is referencing the damping element previously recited in claim 13.
9. Claim 24 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationship is between the pivot unit and the stop module.

Allowable Subject Matter

10. Claim 13 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
11. Claims 14-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.
